John Cusack plays Rob, the heartbroken owner of an independent record store in Chicago. Rob and his employees— the brazen Barry (Jack Black) and the knowledgeable Dick (Todd Louiso)— take melomania and musical snobbishness a tad too seriously. But through them, we listen to all sorts of good tracks like "Dry the

Rain" by The Beta Band and "Oh! Sweet Nuthin'" by The Velvet Underground. All that while Rob tells the audience about his top five breakups. Let's go over a few of the movie titles released when Gen Xers were coming of age and learning how to grapple with grown-up life and tedious, underpaid 9-to-5 jobs. And let's see what— other than cynicism, angst, ripped jeans and grunge music— defined the disaffected generation that gave us Winona Ryder, Ethan Hawke, Julie Delpy and Keanu Reeves. Lelaina is videotaping Troy and their friends Vickie (Janeane Garofalo) and Sammy (Steve Zahn), pursuing her passion for documentaries and trying to capture the struggles of her generation. She also has a relationship with Michael and tries to understand whether a sort of platonic friendship with Troy is all there is to them. Co-written and directed by Adolfo Aristarain, the movie explores the idea of identity and finding yourself from the perspective of Hache, who debates between two cities and

two different chances at life. What Is a Military Ball, And Why Is This Event Held?. Keep Your Favorite Vinyl in Order With KAIU's Stylish Display Rack. If the last time you played Mortal Kombat was sometime in the 1990s at the arcade or on the original PlayStation, you're in for a treat. This franchise's titles have gotten progressively more intense and detailed over the years, and the X S version is perhaps the most robust yet. Wind of Change-Pre Season 02, Ekhanai Sesh Noy-Poraho, Charpoka-Ashes, Neel Manush-Sheikh Salekin, Pritom-Pritom Hasan, Kosto Bristi-Tanjib Sarowar, Naker Ful-F A Sumon, Ore Mon-Shahrid Belal, Wind of Change-Pre Season 01, Dulavai Zindabad-Movie Songs, Dhaka Attack-Movie Songs, Rockholic 4-Band Mixed, Amra Amra 4-Variou Artists, Obhiman Amar-Tahsan. is a must-have if you're a fan of previous titles in the series or if you're new to the groove and looking for a fun way to get some exercise. This latest installment sticks to many of its familiar features, but with a few added surprises. One of these new additions is Quick Play Mode, which chooses a random song from the playlist; it's perfect for unpredictable battles and challenges. Musicians who've been added to Just Dance 2021 include BLACKPINK, Lizzo, Doja Cat, Bad Bunny, Billie Eilish and many more. What Are Some Foods

How to Deactivate Your Facebook Profile and Why You Might Want To. If we had to choose just one movie to encapsulate how Generation X felt in the '90s, it would probably be this one. Winona Ryder plays Lelaina, a valedictorian right out of college who's trying to navigate her life as a grown-up and who wants to have a career as a documentarian. Ethan Hawke is Troy, Leilana's womanizing best friend and perennial slacker. Ben Stiller, who also directed the movie, plays Michael, a convertible-driving yuppie who works at an MTV-like TV station. Richard Linklater (*Boyhood*) directed and co-wrote this tale about the American tourist Jesse (Ethan Hawke) and the French Céline (Julie Delpy). They meet on a Eurail train and decide to disembark in Vienna and spend one night together chatting and getting to know the city— and one another. The romantic film is basically a series of conversations between the two young people and their reflections on life. Xbox Series S Versus Xbox Series X: Which Console Is Right for You?. But, as with anything, it's what's inside that really counts— and there are some substantial differences in these consoles, particularly when

it comes to graphics. While both consoles feature the Custom AMD Zen RDNA 2 graphics system, the Series X has 52 compute units compared to the Series S's 20. What does this mean? Compute units are like tiny processors, and having more of them means the Series X offers faster, more refined and responsive graphics than the Series S is capable of providing. Another area where the machines differ? The Series S has 1440p resolution, while the Series X offers 4K for a crisper-than-crisp picture. This one is certainly the most adrenaline-fueled title on the list.

You'll play as an elite operative tracking Perseus, a rogue antagonist and Soviet intelligence officer who's working with international criminal organizations to destabilize global powers. As with

other titles for these new consoles, Cold War incorporates a 4K feature that helps make gameplay even more engaging than it already is— be careful you don't get too close to the edge of your seat! Ethan Hawke and Winona Ryder in "Reality Bites." Photo Courtesy: Universal/Everett
